♦ 1st place in the undergraduate paper contest at the OAEPS Annual Meeting

EMPLOYMENT

Federal Reserve Board
Economics Intern for Dr. Simona Hannon

May 2023 - present

Division of Research and Statistics, Consumer Finance Section

- Created a novel data set of U.S. finance companies. Used R and STATA to web scrape, clean, prepare, and visually inspect data to offer insights into a major component of the growing, yet understudied, non-bank sector in the U.S.
- Co-authored three FEDS Notes on securities-based lending, the Payday rule, and credit-building products. Used ggplot and policyPlot in R to create charts, cleaned and prepared data, fact checked and proofread the manuscripts.
- Created a set of charts for credit-building product market monitoring.
- Examined large banks' regulatory reports for CFPB late fee rule- and consumer credit delinquency-related references.

Larson Texts Inc.
Intern, Higher-Ed Mathematics

September 2020 - May 2023

- Developed mathematics exercises and solutions ranging from elementary level to Calculus.
- Participated in the implementation and initial design of the National Digital Assessment Project.

Department of Economics - Gannon University *January - December 2023; June - October 2024*
Voluntary Research Assistant for Dr. David Yang

- Reviewed Python code retrieving macroeconomic data via FRED API and crypto price data via Tiingo.
- Assisted in the creation of a Jupyter Notebook teaching fundamentals of financial analysis in Python.
- Attended private lectures covering econometrics and machine learning methods (with sk-learn).

TECHNICAL SKILLS

R | STATA | Python | SQL | HTML | CSS | L^AT_EX | JS | Google Professional Data Analytics Certification
